Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This sundry is to serve as notice that drilling and completion operations were carried out on the Ananya Hixon No. 1 across the lease (NM 57577) expiration date therefore holding the lease and placing it in its secondary term. On November 30, 1988 Bill Blackard with the BLM informed Al Kuchera of our office that the BLM had witnessed drilling and completion operations across the lease expiration date.

The following drilling and completion operations were performed:

11/21/88 Spudded well at 12:00 A.M. Set surface casing.

11/22/88 - 11/26/88 Drilling ahead.

11/26/88 Ran electric logs.

11/27/88 Set production casing. Wait on cement.

11/28/88 Moved in completion unit and rigged up. Picked up tubing and tripped in hole.

11/29/88 Pressure tested casing and rolled hole. Tripped tubing out of hole. Perforated the Gallup Formation from 4873'-4879' and 4881'-4891'. Tripped tubing in hole.

11/30/88 Acidized perforations with 500 gallons of 15% HCL acid. Swabbed fluid back. Fraced well with 102,500 lbs. of 20/40 Brady sand.

18. I hereby certify that the foregoing is true and correct
