17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Under present conditions, this well is not able to produce natural gas into a pipeline with the amount of liquids present.

We are requesting temporary abandonment as it is not economical at the present prices allowed for natural gas by the Government to attempt a workover in an effort to get the well on production.
