13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well bore represents a legal Mesa Verde infill location. It is our intention to perforate and fracture stimulate the Mesa Verde and place into production. Once a stabilized rate is established we will commingle the Mesa Verde with the Dakota and Pictured Cliff formations, which are currently producing from the well bore. We expect this work to commence on or about September 20, 1999

14. I hereby certify that the foregoing is true and correct
