17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

This well has been shut in since 9-9-59. It was shut in due to high line pressure on Southern Union System at that time.

It is proposed to reconnect well to Southern Union System.

It is also proposed to fracture treat well with 42,000# sand and water in an attempt to increase its deliverability.
