Mr. William Lemay, Director
Oil Conservation Division
New Mexico Department of Energy,
Minerals and Natural Resources
State Land Office Building
P.O. Box 2088
Santa Fe, NM 87503

RE: Application of Union Oil Company
of California dba Unocal for a non-
standard Location of an existing well
recompletion to the Basin Fruitland
Coal (Gas) Rincon Unit #122, 1750'
FSL & 990' FEL, NE/4 SE/4, Sec. 26,
T27N-R6W, Rio Arriba County, NM
SF079367-A

Dear Mr. Lemay:

Union Oil Company of California dba Unocal hereby makes this application for administrative approval for a non-standard location to the Basin Fruitland Coal (Gas) formation as per Rule 8, Special Rules and Regulations for the Basin Fruitland Coal Gas Pool. The subject well, located in the NE/4 Sec. 26, T27N-R6W, was originally drilled to the Blanco Pictured Cliffs South formation and is no longer productive. It is proposed to plug back the Pictured Cliffs formation and recomplete uphole to the Fruitland Coal formation.

Since this well is located in the SE/4 of the section it is off pattern and therefore non-standard in the Basin Fruitland Coal.

A letter notifying offset operators of Unocal's intent and this application for administrative approval has been submitted to all offset operators by certified mail return receipt with a request that they furnish the NMOCD with a Waiver of Objection, and that they return one copy to Unocal.

A map of the lease is attached to this application showing offset operators and owners.

Also attached is a new C-102 showing the 320 acre dedication to the Basin Fruitland Coal and copies of the letters sent to offset operators.

Union Oil Company of California requests that the Director approve this application for a non-standard location.

Respectfully submitted,

Union Oil Company of California
dba UNOCAL

A handwritten signature in cursive script that reads "Bill Hering". The signature is written in dark ink and is positioned above the printed name and title.

RE: Offset Owner Consent
Rincon Unit #122, 26I, T27N-R6W
Rio Arriba County, NM

Gentlemen:

Union Oil Company of California dba Unocal intends to recomplete the existing Rincon Unit #122 in the southeast quarter of Section 26, T27N-R6W to the Basin Fruitland Coal Gas formation. This well originally drilled and completed to the Blanco Pictured Cliffs South, is no longer productive and has been disconnected from the meter. It is located 1750' FSL, 990' FEL. An administrative approval application for a non-standard Basin Fruitland Coal Gas location has been made to the New Mexico Oil Conservation Division (NMOCD).

Since records show your company to be an offset owner, Unocal respectfully requests that you indicate your approval or disapproval of this project to the NMOCD. If you have no objection, please sign and date the Waiver of Objection given below, furnishing one copy to the NMOCD and forwarding one copy to the office indicated on the letter-head. Since this project is critical in regard to timing, your early response would be appreciated.

Respectfully submitted,

Union Oil Company of California
dba UNOCAL

Attention: Bill Hering

Administrative Order NSL-2912

Dear Mr. Hering:

Reference is made to your application dated September 10, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Rincon Unit Well No. 122 which was drilled in 1958 and completed in the South Blanco Pictured Cliffs Pool at a standard gas well location 1750 feet from the North line and 990 feet from the East line (Unit I) of Section 26, Township 27 North, Range 6 West, NMPM, Rio Arriba County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the E/2 of said Section 26 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay
Director
