Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

In order to attempt to reduce the water production from the Dakota formation, a through-tubing bridge plug was set at 7400' (above the perforations 7422-30'). The well is presently flowing to the line to test water productivity.

To accomodate the setting of the plug, the tubing was cut at 7369'.

18. I hereby certify that the foregoing is true and correct
