(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

July 24, 19 61

Well No. 61 is located 1700 ft. from N line and 1850 ft. from E line of sec. 5
NE Section 5 27-N 5-W N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Blanco Mesa Verde Rio Arriba New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6653 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It was originally intended to dually complete this well in the Pictured Cliffs and Mesa Verde formations. After logs were run on 6-11-61, the Pictured Cliffs formation was found to be non commercial, therefore the well was completed in the Mesa Verde formation only.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
