RE: Commingling Allocation
San Juan 27-5 Unit #117
800' FNL & 800' FEL
Section 22, T27N, R05W

RECEIVED
FEB 10 1998
OIL CON. DIV.
DIST. 3

Dear Mr. Chavez,

We have reviewed the production tests on our San Juan 27-5 Unit #117 MV/DK, a recent commingled Blanco Mesaverde and Basin Dakota producer, as per N.M.O.C.D order DHC-1450. Based on volumes taken before and after the workover from the Mesaverde and Dakota, we feel that the following gas/oil production allocation on the subject well's commingled zones would be reasonably accurate:

	<u>Gas</u>	<u>Oil</u>
Mesaverde	60%	0%
Dakota	40%	100%

Please let us know if this percentage allocation meets with your approval.

Sincerely,

J. L. Dobson
Production Engineer
