NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

F-33-27N-SW

I, Jeff Peace, being of lawful age and having full
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by El Paso Natural Gas Company in the capacity of
Petroleum Engineer, that on November 3, 19 80

I personally supervised the setting of a Baker Model G Seal Assembly in PBR
Make & type of packer

in El Paso Natural Gas Company, San Juan 27-5 Unit,
Operator of well

South Blanco Pictured Cliffs &
Lease name
Well no. 35A (PM) located in the Blanco Mesa Verde field,

Rio Arriba county, state of New Mexico, at a subsurface depth of
3426' feet, said depth measurement having been furnished me by

Pipe Record;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Jeff Peace
