RE: Lively #21E - Accept downhole commingle applications & allocation factors

Dear Ms. Cole:

The Lively #21E well was reviewed for downhole commingling of the Chacra/Mesaverde/Dakota formations. After reviewing the production history for this well, we concur with the allocation factors established for gas and the associated hydrocarbons in your application. The effective date is the date that downhole commingling actually occurs. The well and the approved allocation factors are listed below.

Well Name	Lease	Location	API#	Formation Allocation	Formation Allocation	Formation Allocation
Lively #21E	NMSF080511	sec 31, T27N, R7W	3003922670	CH gas 31% oil 0%	MV gas 52% oil 10%	DK gas 17% oil 90%

If you have any questions, please contact Adrienne Garcia at (505) 599-6358 or the undersigned with this office at (505) 599-6367.

Sincerely,

Jim Lovato
