(other) Extension for Permit to Drill

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Due to an excessive workload in the BIA, concurrence was not received by the USGS until after April 10, 1982. In addition, snow cover prevented an archaeological survey from being conducted until recently.

For these reasons Northwest Pipeline requests a 30 day extension on the spud date of this well.
