Dear Alice,

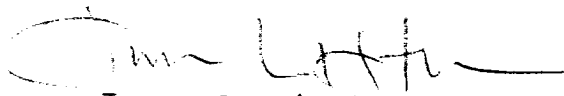

As I promised in our meeting Thursday, June 4, I am enclosing a new C-104 application and a copy of an amended Form 3160-4, which is being sent to the BLM in Farmington for their files. On the C-104, I have corrected the previously inadequate location data for the well, and the inconsistencies regarding completion date.

I am continuing to prepare amended 3160-5 forms to show the actual surface location of this well and you will shortly receive copies of these. Additionally, I have ordered a new gas/oil ratio test to be conducted on our 3F-1 well. You will receive the results of that, too, shortly.

Thank you for your patience and cooperation. I am sorry if the delays have caused any problems for you.

Sincerely,

**AMERICAN HUNTER EXPLORATION LTD.**
