OIL CON. DIV.
DIST. 3

Gentlemen:

In confirmation of our recent telephone conversation in regard to performing Gas/Oil Ratio tests on the two referenced wells, American Hunter respectfully requests an extension of time to perform said tests.

The Jicarilla 2A-1 well has been shut-in since February 10, 1992 due to impassable road conditions. We would like to have the Jicarilla 3F-1 well producing for reasonable period of time prior to doing the GOR test.

Please advise the undersigned at your earliest convenience should you require additional information in regard to this request. I may be reached at (403) 260-1161 "collect".

Ernie, we greatly appreciate all the assistance we have received from you and your staff.

Very truly yours,

AMERICAN HUNTER EXPLORATION LTD.

Kathryn Irvin
