Dear Ms. Bradfield:

Reference is made to your proposal to use fixed allocation factors for the commingled gas and oil production in the above referenced well. After reviewing the production forecast for the Mesaverde and the Dakota formations and the well test data, we agree with the allocation factors as proposed. As such, you are hereby authorized to use the fixed allocation factors for the Dakota and Mesaverde formations as outlined below:

<u>Formation</u>	<u>Gas</u>	<u>Oil</u>
Mesaverde	92%	100%
Dakota	8%	0%

Commingled production from each zone must be reported in accordance with these established allocation factors. The effective date of commingling will be the date commingling first occurs.

If you have any questions regarding the above, contact Jim Lovato at (505) 599-6367.

Sincerely,

/S/ Duane W. Spencer
