Re: R.A. Johnston #23 Rincon Unit
SW Sec. 35-27N-7W

Gentlemen:

It will not be necessary for you to file a Gas Well Plat on the above well unless you wish to produce it.

Yours very truly

Emery C. Arnold
Oil & Gas Inspector
District #3

Aztec, New Mexico

Gentlemen:

We have your letter of January 20, relative to the plat on the Ralph A. Johnston #23 Rincon Unit, SW 35-27N-7W. This well was drilled to the Mesaverde formation and was a failure at that depth. In the near future we expect to sell this well to El Paso Natural Gas Company and they will complete it in the Pictured Cliffs formation.

If it is still necessary for us to file a plat on this well please advise.

Very truly yours,

Lyle E. Carbaugh
