Dist. 1 **San Juan** **New Mexico**
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is **6217** ft. **G. L.**

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Drilled to total depth of 5075' KB, completed logs, conditioned hole, and run 197 joints (5095') 5 1/2", 148, J-55. Casing landed at 5074' KB. Casing equipped w/Baker Shoe, 6 I Baffle, Centralizers & Scratchers, and cemented with 125 sac 3/4 Gal Cement. Pumped plug to Float Collar at 5006' KB. Ran Temperature survey and found top of cement behind casing at 4305' KB.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company **The British-American Oil Producing Company**

Address **Box 100**

Denver, Colorado

By **Thomas M. Hogan**
Title **District Superintendent**

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the implementation of the proposed changes. It details the steps involved in the transition process, from the initial planning phase to the final execution. This section also addresses the potential challenges that may arise during the implementation and provides strategies to overcome them.

3. The third part of the document discusses the long-term impact of the changes. It highlights the expected benefits, such as improved efficiency and cost savings, and provides a timeline for when these benefits are anticipated to be realized. This section also includes a discussion on the ongoing monitoring and evaluation of the changes to ensure they continue to meet the organization's needs.

4. The fourth part of the document provides a detailed overview of the financial aspects of the project. It includes a breakdown of the estimated costs and a comparison of the expected benefits against the initial investment. This section also discusses the funding sources for the project and the expected return on investment. The financial analysis is presented in a clear and concise manner, allowing stakeholders to make informed decisions about the project's viability.

5. The fifth part of the document discusses the legal and regulatory requirements that must be met for the project to proceed. It outlines the various laws and regulations that apply to the project and provides a checklist of the required documentation. This section also includes a discussion on the potential legal risks associated with the project and provides strategies to mitigate them.

6. The sixth part of the document provides a summary of the key findings and recommendations. It highlights the most important points from the document and provides a clear and concise summary of the overall conclusions. This section also includes a list of recommendations for further action and a timeline for when these actions should be completed.

7. The seventh part of the document is a concluding statement. It reiterates the importance of the project and expresses confidence in the organization's ability to successfully implement the changes. This section also includes a statement of appreciation for the support and cooperation of all stakeholders.

8. The eighth part of the document is a list of references. It includes a list of all the sources used in the document, including books, articles, and websites. This section is formatted in a standard academic style, making it easy for readers to locate the sources if they wish to do so.

9. The ninth part of the document is a list of appendices. It includes a list of all the additional information that is provided in the document, such as charts, tables, and diagrams. This section is formatted in a standard academic style, making it easy for readers to locate the appendices if they wish to do so.

10. The tenth part of the document is a list of footnotes. It includes a list of all the footnotes that are present in the document, providing additional information and clarifications. This section is formatted in a standard academic style, making it easy for readers to locate the footnotes if they wish to do so.
