*Dear Sir:*

*The Gulf Oil Corporation #1 Blackrock Federal "C" well located in Section 21-26N-11W, according to the well record filed is completed in the Dakota formation with perforations from 6040-80'. However, all previous forms filed on this well, as well as the Well Record, indicate the pool to be the Gallegos-Gallup Pool. We also note that production reports are being filed with the pool designation as Gallegos-Gallup.*

*I believe that the proper designation for this well should be Basin Dakota. Will you please correct your records to reflect this change.*

*I also note that Form C-104, Request for Allowable, was not filed on this well. We are enclosing a supply of this form.*

*Yours very truly*
