

# El Paso Natural Gas Company

El Paso, Texas

ADDRESS REPLY TO:  
POST OFFICE BOX 997  
FARMINGTON, NEW MEXICO

January 28, 1960

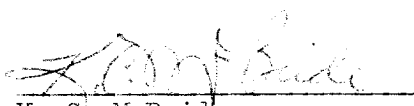

Mr. E. C. Arnold  
Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

Dear Mr. Arnold:

*F-1*  
El Paso Natural Gas Company well Huerfano Unit No. 111, NW 20-26-9, Gallup, was first delivered to the gas sales line Dec. 11, 1959 and produced on a frac oil recovery basis in an undesignated Gallup field. The well has recently been taken into the Angels Peak-Gallup oil pool and a gas allowable will be required from your office based on the rules established, in order for us to produce our remaining oil used during drilling operations.

*Angels Peak-Gallup*  
Upon full recovery of frac oil used a form C-11.6 will be filed for official oil allowable request.

Yours very truly,

  
K. C. McBride  
Production Engineer
