N. M. Production Unit No. 8236

Gentlemen:

I have a letter dated December 2nd from the Oil Conservation Commission by Mr. Emory C. Arnold requesting that a gas-oil ratio test be conducted and submitted to his office not later than ten days thereafter.

His letter further states that he has not given the well a December allowable because he has not received a gas-oil ratio test and he requests that this test be made immediately in order to avoid further loss of allowable.

Please handle this matter for me since you are taking the oil from this well.

Yours very truly,

H. K. Riddle
