12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

While attempting to clean out this well, we discovered that we had a small amount of mud or cement on our tubing string. As a result we abandoned our attempt to clean out well at that time (9-8-94). We also needed new tubing to go into this well and were going to pull needed tubing from another well anyway, so decided to pull this tubing prior to testing casing in the Greer #2.

We plan on testing casing as soon as we complete this work on the well we are pulling tubing. If a casing leak is determined, we plan on squeezing the hole at the same time. 5½ casing set at 1976' and open hole completion from 1976-2025'.

Plan to begin testing casing 9-15-94

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
