**RE: Injection Pressure Increase,
Frontier Well No. 1-A #1
API No. 30-045-05919
San Juan County, New Mexico**

RECEIVED
DEC 27 1999
OIL CON. DIV.
DIST. 8

Dear Mr. Thompson:

Reference is made to your request dated December 17, 1999 to increase the surface injection pressure on the above referenced well. This request is based on data obtained from a step rate test conducted on December 6, 1999. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

<i>Well and Location</i>	<i>Maximum Injection Pressure</i>
Frontier Well No. 1-A	930 PSIG
Located in Section 8, Township 26 North, Range 12 West, San Juan County, New Mexico.	

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

Lori Wrotenbery

Lori Wrotenbery
