Mr. J. Lee Smith
P.O. Box 100
Austin, Texas 78701

Dear Mr. Smith:

Enclosed for you are two copies of the report on the work of the Oil Conservation Commission for the year 1960. The report was prepared by the Commission and is being distributed to all members of the Commission. It contains a list of the members of the Commission and a list of the work of the Commission for the year 1960. With this report is a letter of transmittal from the Commission to you. The information is being furnished to you for your information and for the information of the public.

The Oil Conservation Commission for the year 1960 has been organized and is now in operation. The Commission is composed of representatives of the oil industry, the government, and the public. The Commission is charged with the responsibility of conserving the oil resources of the State of Texas. The Commission is also charged with the responsibility of promoting the efficient use of oil. The Commission is currently working on a number of projects, including the development of a plan for the conservation of oil resources, the establishment of a system for the control of oil production, and the promotion of the efficient use of oil. The Commission is also working on a number of other projects, including the development of a plan for the conservation of oil resources, the establishment of a system for the control of oil production, and the promotion of the efficient use of oil.

Sincerely,
J. Lee Smith

J. Lee Smith
