...blastings exploded September 30, 1952. Well was cleaned out to 2260 feet with
able tool bit and 1-7/8 tubing was landed at 2207 feet. Well shut in 28 hours.

11, clean out and run tubing.

Well was spudded at 6:00 A.M., September 6, 1952, and drilled to a total depth of 2260 feet with rotary tools. Early 1951 it was moved onto well to drill plug, shoot

side-tracked" or left in the well, give its size and location. If the well has been dynamited, give diameter, size, position, and number of charges. If pings or bridges were put in to test for water, state kind of material used, position, and results of pumping or pinging.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was
