13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to your letter of April 4, 1994, the Graham #53 well has been in a producing status since March 16, 1993 (please refer to Notice of First Production sent to BLM on March 18, 1993). We have currently requested this well be approved for low volume well alternative gas measurement (please refer to letter dated March 24, 1994). We request the approval to plug and abandon this well be rescinded.

Also, please note that Walsh Engineering and Production no longer looks after these wells. KM Production Company has been performing as agent for R & G Drilling Company since August of 1992.
