☐ New Construction

☐ Non-Routine Fracturing

☐ Water Shut-Off

☐ Conversion to Injection

☐ Dispose Water

(Note: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion proposes to return this well to production. A recent flow test was conducted in preparation to P&A, and we found the well capable of producing up to 20 MCFD against line pressure. In addition, we plan to repair the separator on location which is unable to function properly. This has prevented gas production in the past. Please cancel our previous sundry (dated 11/17/92) to P&A.
