13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

SG is requesting an extension of shut in status for the subject well (current approval expired 6/1/2000). This well is one of five wells scheduled to be completed and turned to sales on the West Bisti Gathering System. Construction of the West Bisti Gathering System has been completed, and we anticipate completing this well within the next month. We hope to have this well producing by August 1, 2000.
