*Re: Hamilton Investment Company  
33-28N-4E*

*Dear Ed:*

*We have no recent report of operations on the #1 Penn Building well. Have been advised that plugging operations were to have begun two or three weeks ago. Our records still show T.A. @ 1332 as of 9-8-57.*

*The only information we have on the #1 Spill Brothers is the first report. This is a new hole.*

*Sorry we can't provide more help at this time.*

*Yours very truly*

Re: Mr. W. A. Lister

Re: Lister Investment Company  
33-254-41

Dear Sir:

We have no recent report of operations on the #1 Lister Well. Have been advised that plugging operations were in place begun two or three weeks ago. Our records still show W.A. Lister as of 4-8-57.

The only information we have on the #1 Lister Well is the first report. This is a new hole.

Sorry we can't provide more help at this time.

Yours very truly

J. A. Kendrick

Mr. Emory Arnold  
Oil Conservation Commission  
Aztec, New Mexico

Dear Emory:

Give me a lift, will you?

10-22-59  
Hamilton Investment Co. No. 1 Spill Brothers was listed as a new location on 10/28, at 560/n and 760/w, Section 33-28n-4e. Elsewhere I had heard that as of 10 days earlier Hamilton had already set pipe to the Entrada.

7 H  
A-7  
Hamilton No. 1 Penn Bldg. was reported as a completion on 9/30 at ~~332/w~~ 330/w and 2310/n, same section. Your dope indicated drilled to TD of 1332 in 1957 and abandoned.

I had no dope on the 1957 activity at that time, and neither did a couple of others that I asked, so I'm wondering if this is the way it happened, or if these are two confused reports on the same test, or what.

It will be appreciated if you will confirm these two reports, or straighten me out.

*What else is going on?*

Very truly yours,

E. J. Lewis
