March 29, 1963

*Foutz and Bursum Construction Co,
Box 307
Farmington, New Mexico*

Attn: Mr. L. C. Lumpkins

Dear Sir:

Reference is made to your letter of March 25, 1963 regarding deviation on the Foutz and Bursum #1 Val well located in Unit I, Section 27-23N-1W, Rio Arriba County.

It is understood that Foutz and Bursum owns the 40-acre tracts to the North and East of the tract upon which this well is located. It is also understood that all ownership interests in all three 40-acre tracts is common. It is, therefore, evident that it would be impossible for the bottom of the hole to be located on acreage other than that owned by Foutz and Bursum.

We therefore grant your request for an exception to the directional survey requirements.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

ANEXO 10

1. *Journal of the American Medical Association*, 1997; 278: 1039-1044.

5. *Chlorophyll a* and *Chlorophyll b* were determined using a spectrophotometer (Shimadzu UV-1601) at 663 nm and 646 nm, respectively. The concentrations of chlorophylls were calculated using the following equations:

1. *Journal of the American Medical Association*, 1997; 277: 1001-1005.

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015.

2008年12月15日

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthaler and Whistler (1973).

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific information required.

1. The first step in the process of the investigation of the
 2. case is the identification of the subject of the investigation.
 3. This is done by the investigator who is assigned to the case.
 4. The investigator must identify the subject of the investigation
 5. and the nature of the investigation. This is done by the
 6. investigator who is assigned to the case. The investigator
 7. must identify the subject of the investigation and the nature
 8. of the investigation. This is done by the investigator who
 9. is assigned to the case. The investigator must identify the
 10. subject of the investigation and the nature of the investigation.
