ate names of and expected depths to obj		
ate names of and expected depths to obj	DETAILS OF WORK ective sands; show sizes, weights, and lengths of prop- ing points, and all other important proposed work	
ate names of and expected depths to obj		osed casings; indicate mudding jobs; cament
to names of and expected depths to obj	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work	osed casings; indicate mudding jobe; coment
to names of and expected depths to obj	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
its names of and expected depths to obj	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
to names of and expected depths to object to: Set the will be installed a 7/8" hale to penetrate to, the form the end form the color to T.A. If probability to T	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
t is proposed to: Set The will be installed a 7/8" hale to penetrate Sing to T.D. If probating to T.D. If probating to T.D. If probating to Indicated producing	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
t is proposed to: for the vill be installed a 7/8" hale to punctuck to, the form my and few acing to T.B. If producing to indicated producing	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
t is proposed to: Set the vill be installed a 7/8" hale to paretrate to; Sense to 7.8. If probating to 7.8. If probating	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	osed casings; indicate mudding jobe; coment
t is proposed to: Set the will be installed a 7/8" hale to penetrate as, dama hay and Sent asing to T.D. If probating to I.D. If probating at indicated producing	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	end count to surface; pel for 30 minutes; drill mad to be at 8900'; run vill be mad from surface; will be run through don supernost producing sale.
t is proposed to: Set The will be installed a 7/8" hale to penetrate The common set and seed asing to T.D. If probate the indicated producing	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	end count to surface; pel for 30 minutes; érill mod to be at 8300'; sun vill be mod from surface; will be run through des represent producing sous.
t is proposed to: Set SPs will be installed a 7/8" hale to penetrate 45, damn may and Sen esing to T.D. If prob at indicated producing	8 5/8" OD, 24 casing at 500" and the casing tested to 1500 to the Herrison formation estimative, 1/2" OD, 11.6f casing states and committed 500" above	and count to surface; and count to surface; pel for 30 minutes; drill noted to be at \$500'; run vill be used from surface will be sun through don to you producing some ways and producing some ways are ways and producing some ways are ways and producing some ways and producing some ways are ways and producing some ways and producing some ways are ways and ways are ways and ways are ways and ways are ways are ways and ways are ways are ways and ways are ways and ways are ways and ways are ways are ways are ways are ways are ways are ways and ways are ways are ways are ways and
t is proposed to: Set SPs will be installed a ?/S" hale to penetrate -ES, Generally and Sen esting to T.D. If prob at indicated producing	ective sands; show sizes, weights, and lengths of proping points, and all other important proposed work. 8 5/8 CD, 24 casing at 500	and occupit to surface; pel for 30 minutes; frill mod to be at \$900'; run vill be used from surface; will be run through the upperment producing mode. IMAY 1: 1964 WAY 1: 1964 U. S. GEOLOGICAL SURVEY
t is proposed to: Set We will be installed a 7/8" hale to panetrate We man hay and Seal esting to T.B. If prob at indicated producing	8 5/8" OD, 24 casing at 500" and the casing tested to 1500 to the Herrison formation estimative, 1/2" OD, 11.6f casing states and committed 500" above	end count to surface; pel for 30 minutes; drill mad to be at 8900'; run vill be mad from surface; will be run through and upperment producing some.
t is proposed to: Set SPs will be installed a 7/8" hale to penetrate 45, Generally and Seni esting to T.D. If prob at indicated producing	8 5/8" OD, 24 casing at 500" and the casing tested to 1500 to the Herrison formation estimative, 1/2" OD, 11.6f casing states and committed 500" above	and occupit to surface; pel for 30 minutes; frill mod to be at \$900'; run vill be used from surface; will be run through the upperment producing mode. IMAY 1: 1964 WAY 1: 1964 U. S. GEOLOGICAL SURVEY
