Dear Mr. Arnold:

Two tests on the San Juan 28-7 #94 (M) have been submitted to you. The first one was calculated with Pictured Cliff chart detail used erroneously for the Mesa Verde test. The test you received first showed a state "D" of 163 MCF/Day with the chart 9/21/58 to 10/1/58 being used. The later test showed a state "D" of 219 MCF/D and the chart period was 10/22/58 to 10/30/58.

Please void the first test and use the second one.

Yours very truly

Tom Grant
