FARMINGTON, NEW MEXICO

April 10, 1961

Mr. E. C. Arnold
New Mexico Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Mr. Arnold:

Re: El Paso Natural Gas Company well, San Juan Unit 28-5 No. 44 (DK)
SW/4 Sec. 27, T-28-N, R-5-W, Rio Arriba County, New Mexico.

In submitting the enclosed form C-122-A, Initial Deliverability Test on the above named well, we should like to bring to your attention the fact that a bottom hole choke was installed in the Dakota tubing string.

At the present time we have not compiled sufficient data to enable us to calculate the pressure drop across this type of choke; therefore, the data submitted in the accompanying test will necessarily be erroneous.

With your approval, we should like to submit a corrected test at a later date when sufficient data can be accumulated to enable us to calculate a more accurate test.

Sincerely,

EL PASO NATURAL GAS COMPANY

R. L. Nickell, Jr.
