THE AMERICAN INSTITUTE OF STATISTICS

The American Institute of Statistics is a non-profit organization devoted to the advancement of statistical science and its application to the solution of social and economic problems. It was founded in 1906 by a group of leading statisticians and has since that time been the center of statistical research and education in this country.

The Institute is organized into several departments, each of which is headed by a distinguished statistician. These departments are:

1. The Department of Applied Statistics, which is concerned with the application of statistical methods to the solution of practical problems.

2. The Department of Mathematical Statistics, which is concerned with the development of the mathematical foundations of statistics.

3. The Department of Statistical Theory, which is concerned with the development of the theoretical foundations of statistics.

4. The Department of Statistical Education, which is concerned with the improvement of statistical education in this country.

5. The Department of Statistical Research, which is concerned with the advancement of statistical science through original research.

The Institute also publishes a journal, the *Annals of the American Institute of Statistics*, which is devoted to the publication of original research in statistics.

The American Institute of Statistics is located at 1200 North Dearborn Street, Chicago, Illinois 60610.

For more information, please contact the American Institute of Statistics at the above address.
