Mr. A. L. Porter, Jr.
New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Porter:

Pacific Northwest Pipeline Corporation is requesting a non-standard gas proration unit for San Juan Unit 28-4, Well No. 6-11, located 1075' F&L and 925' F&L, Sec. 11, T 28N R 4W, Rio Arriba County, New Mexico.

Well No. 6-11 is a proposed dual completion well. It is located in the Blanco Mesa Verde Pool and the Shosa Mesa Pictured Cliffs Pool. All of Section 11, containing 228.68 acres, is dedicated to the drilling block. This non-standard gas proration unit is caused by a variation in the legal subdivision.

Pacific Northwest Pipeline Corporation owns all of the leases on Section 11. Attached is original receipt notifying El Paso Natural Gas Company, the only offset operator.

Respectfully submitted.

T. A. Dugan
District Engineer

Mr. A. L. Porter, Jr.
New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Porter:

Pacific Northwest Pipeline Corporation is requesting a non-standard gas production unit for San Juan Unit 28-4, Well No. 6-11, located 1075' TBL and 925' TBL, Sec. 11, T 28N R 4W, N10 Arriba County, New Mexico.

Well No. 6-11 is a proposed dual completion well. It is located in the Blanco Mesa Verde Pool and the Blanco Mesa Pictured Cliffs Pool. All of Section 11, containing 328.68 acres, is dedicated to the drilling block. This non-standard gas production unit is caused by a variation in the legal subdivision.

Pacific Northwest Pipeline Corporation owns all of the leases on Section 11. Attached is original receipt reflecting El Paso Natural Gas Company, the only offset operator.

Respectfully submitted.

T. A. Dugan
District Engineer
