Re: Coquina Oil Corporation
Esquibel #1
K-28-28N-4E
Rio Arriba County

Dear Mr. Bump:

All drilling reports for the subject well are delinquent except for wire line logs.

Please file the following forms by return mail:

1. C-103 showing spud date, size, depth, cement and water shutoff test of surface casing.
2. C-103 showing proposed plugging program.
3. C-103 showing subsequent report of plugging.
4. C-105 - Well Completion Report.

I recently visited the location and noted the following:

1. The dry hole marker must be re-set so that all information thereon will be above the regraded ground.
2. The pit was dry on May 10.

It is suggested that the location cleanup be accomplished prior to the summer rains.

Disposal of ALL junk will be required prior to approval of abandonment of the well.

Please advise this office of the time cleanup is completed so that we can make our inspection before the road washes out.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick
A. R. Kendrick
Supervisor, District #3
