17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We request permission to set a drillable bridge plug between the upper and lower zones of the Choza Mesa Pictured Cliffs Formation. We plan to produce only the upper Pictured Cliffs zone, which produces 4 BWPD. The lower Pictured Cliffs zone has uneconomical gas production in addition to producing an excess of 5 BWPD, therefore not meeting NTL-2B regulations.

Bridge plug to be set at 4190'.
