NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

E-30-28N, 7W

I, Nestor Maldonado, being of lawful age and having full
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by El Paso Natural Gas in the capacity of
Petroleum Engineer, that on May 24, 19 80

I personally supervised the setting of a Seal Assembly in PBR
Make & type of packer
in El Paso Natural Gas, San Juan 28-7 Unit,
Operator of well *Lease name*

Well no. 94 A (PM) located in the S. Blanco PC & Blanco MV field,
Rio Arriba county, state of New Mexico, at a subsurface depth of
3055' feet, said depth measurement having been furnished me by

Pipe record;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Nestor Maldonado
