17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In reference to your letter, 3100 (p16), received by our office January 12, 1984, the above well is currently being held for water disposal purposes pending the completion of a compressor installation project. If it is determined that the well is not needed for water disposal, it will be plugged and abandoned. Therefore, we would like to use the reserve pit as a holding pond for any fluids. It is anticipated that our gas compressor contract with El Paso Natural Gas will be approved within one month. Construction is estimated to begin in June or July of 1984.
