Gentlemen:

The referenced permits have now been approved by this office. This approval in no way removes or lessens the gravity of the violations of drilling these wells without bonding or permits. You are still in serious violation for not filing the appropriate sundry notices.

I have recommended that our attorney initiate legal action to assess fines for these violations.

If you have any questions, please contact this office.

Sincerely,

Frank T. Chavez

Gentlemen:

This letter is being written as an application for exemption of Rule 104 for an unorthodox location. The well is Well #2 in the El Poso Ranch. This well has been accepted as an unorthodox location but was stipulated as being drilled to the Dakota formation. The well, however, was only drilled to the Gallup.

Therefore, an additional request is being made for exemption of Rule 104 for an unorthodox location on Well #2, in the Gallup formation. The reason for this unorthodox location is that the topography of the area makes it impossible to drill a standard well.

Thank you and please forward any paperwork to my attention.

Best Regards,

Matthew J. Burgess
