Dear Dolores,

The above referenced wells have had 1996 Packer Leakage retests conducted on them and were witnessed by myself. These retests indicate communication between the producible zones. Please find copies enclosed.

To bring these wells into compliance with the New Mexico Oil Conservation Division Rule #112A, Burlington Resources O&G Company is hereby directed to initiate remedial activity before 11-18-97.

Sincerely,

Ernest Cardona
Deputy O&G Inspector
