Conoco, Inc. 10 Desta Drive – Suite 100W Midland, Texas 79705-4500

Attention: Kay Maddox

P-12-28N-7W

Administrative Order NSP-1799(L)

Dear Ms. Maddox:

Reference is made to the following: (i) your application dated January 11, 1999; and (ii) to the records of the New Mexico Oil Conservation Division in Santa Fe ("Division"): concerning Conoco, Inc.'s request for a non-standard 321.22-acre gas spacing and proration unit consisting of the following acreage in the Basin-Fruitland Coal (Gas) Pool:

RIO ARRIBA COUNTY, NEW MEXICO TOWNSHIP 28 NORTH, RANGE 7 WEST, NMPM

Irregular Section 11:

Lot 1

Irregular Section 12:

All.

It is our understanding that this unit is to be dedicated to Conoco, Inc.'s proposed San Juan "28-7" Unit Well No. 218-E (API No. 30-039-26065), to be drilled at an off-pattern unorthodox coal gas well location 1030 feet from the South line and 1025 feet from the East line (Unit P) of Section 12.

The above-described acreage conforms to an existing non-standard gas spacing and proration unit in the Basin-Dakota Pool approved under the authority of Division Order No. R-2948, issued in Case No. 3272 dated August 16, 1965.

By the authority granted me under the provisions of Rules 6 and 8 of the "Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool", as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location and non-standard gas spacing and proration unit are hereby approved.

Sincerely,

Lori Wrotenbery

Director

LW/MES/kv

Mr. Michael Stogner New Mexico Oil Conservation Division 2040 Pacheo Santa Fe, New Mexico 87504

RE: Application for Unorthodox Location
San Juan 28-7 Unit # 218E
1030' FSL & 1025' FEL
Section 12, T-28-N, R-7-W,
API # 30-039- N/A
Rio Arriba County, NM
Basin Dakota (71599), Basin Fruitland Coal (71629),
Blanco Pictured Cliffs South (72439)

Dear Mr. Stogner,

In an effort to prevent waste and prudently develop reserves underlying (irregular) Section 12, T-28-N, R-7-W, Conoco, Inc. respectfully requests that approval for an unorthodox Fruitland Coal location be granted at the referenced footages. Conoco's plans for the 28-7 Unit # 218E new drill include development of the Dakota (160 acre infill to the #218), Pictured Cliffs (PCCF), and Fruitland Coal (FRLD). There is currently no PCCF or FRLD production in Section 12.

Plans for the #218E call for setting 7" intermediate casing in the Lewis Shale, and 4.5" liner through the Dakota (with liner top below the base of the PCCF). This casing configuration is being run in order to accommodate two large tubing strings; one for the Dakota, and one for the PCCF/FRLD. Conoco plans to dually complete production from the Dakota with downhole commingled production from the PCCF/FRLD. The applications for dual completion of the Dakota with PCCF/FRLD, and Downhole Commingling of PCCF/FRLD are in the process of being submitted.

The offset operator plat shows that Burlington Resources offsets to the north (29-7 Unit) and Phillips to the northeast, (29-6 Unit). Please find enclosed evidence that the above referenced operators have been notified of this application.

Conoco respectfully requests that an unorthodox location order be issued based on the reasons given in the preceding paragraphs. If there are any further questions concerning this application please call me at (915) 686-5798.

Sincerely.

Kay Maddox Regulatory Agent
