Junior District Superintendent*

*Dear Mr. Matthews:*

*We have received your letter of December 14, 1962 containing data and information indicating bottom hole location of your Jicarilla 4-26 #6 well in the Boulder Mancos field in Rio Arriba County, New Mexico.*

*We believe that the information as shown is conclusive enough to insure that the well is bottomed on the 40-acre unit upon which it is located and therefore are approving your request for allowable this date.*

*Yours very truly*

*Emery C. Arnold  
Supervisor, District #3*
