Aztec, New Mexico

Attention: Mr. E. C. Arnold

Re: Proration Schedule December 1960  
Order-A-133

Dear Mr. Arnold:

Referring to the above captioned proration schedule for the month of December 1960, and the Angels Peak Gallup Pool, Page 10, the W. R. Weaver-McAdams #2 was granted an allowable of 388 MCF per day which is, in our belief, in error. This allowable is based on an 80 acre proration unit, and according to the Oil Conservation Commission Administrative Order NWU-368-A, this well was awarded a 240 acre proration unit. According to our calculations the allowable for this well should be 1,164 MCF per day.

If our calculations are correct, please issue the necessary amendment and advise.

Respectfully

*A. N. Brown*
