☒ Notice of Intent

☐ Abandonment

☐ Change of Plans

☐ Subsequent Report

☐ Recompletion

☐ New Construction

☐ Plugging Back

☐ Non-Routine Fracturing

☒ Casing Repair

☐ Water Shut Off

☐ Altering Casing

☐ Conversion to Injection

☐ Other

12. Describe proposed or completed operations:

The subject well has a suspected casing leak.

It is intended to test production prior to attempting repair of the casing. The current 1" production tubing will be pulled. After clean out of the 5 1/2" casing, a 5 1/2" production packer will be set on 2 7/8" tbq per the attached wellbore schematic. The well will be swabbed as needed to establish production.

After isolation, production will be evaluated for six (6) months. If commercial production is established, the casing will be repaired. If not, the well will be plugged and abandoned.
