LOG OF OIL OR GAS WELL

Survey Mid-Continent Oil Co. 411 West Main, Farmington, N. M.

Company N. H. Federal J. Address B121 New Mexico

Lessors of Tract State San Juan

Well No. 1 Sec. 35 T. 27N R. 13W Meridian

Location 660 ft. N. of Line and 660 ft. W. of E. Line of Sec 35 Elevation 5987 ft.

The information given herewith is a complete and correct record of the well and all work done thereon

so far as can be determined from all available records.

Signed C. G. Sullivan Production Foreman

Date 7-22-57 Title

The summary on this page is for the condition of the well at above date.

Commenced drilling June 3, 1957 Finished drilling June 22, 1957

HISTORY OF OIL OR GAS WELL

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or balling.

CONFLICT OF INTEREST STATEMENT

This is a scan of a blank ledger page. The page features a vertical margin line on the left side. The main body of the page is divided into several columns by vertical dashed lines. There are approximately 10-12 columns visible. Horizontal dashed lines divide the page into many rows, creating a grid-like structure typical of accounting or record-keeping forms. The paper appears aged and slightly discolored.
