104 PETROLEUM CLUB INC. DATA SHEET

1. To maintain well, circulate oil and air while putting in well a 1/2" NPT  
line. Circulate 1/2" line until oil is clear. Circulate 1/2" line until  
there are no light pieces in gas. Circulate 1/2" line until  
gas is clear. If ~~DATA SHEET~~ assembly experiences nipple to bottom valve  
leakage system stop. Shut breaker, pull the top stem ring nut off.  
The will have better seal assembly. Close off valve to prevent  
gas entering. Insert 1/2" pipe, 1/2" dia. off well top assembly and  
shut. Shut well in. If valve ring after well has cleaned up, re-adjust  
the nipples and handle.
