Re: Intentional Deviation Order
#52 Hammond, G-26-27N-8W
Largo Chacra Pool

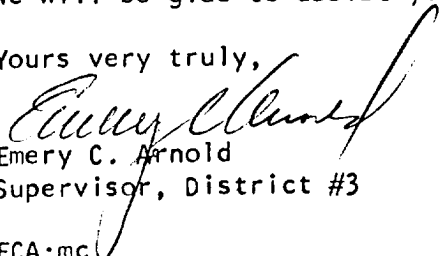

Dear Mr. Russell:

We have received Form C-103 for the above listing deviation measurements. The rule specifies that the deviation tabulation must be sworn to and notarized. Only one copy is necessary.

I am enclosing a copy of my letter of June 26, 1974, setting out requirements on this well before reinstatement of your C-104. As this letter points out you must secure approval at a Commission Hearing of the intentional deviation on this well. So far as I have been able to determine you have not made application for hearing for this matter. Your application should be directed to Mr. A. L. Porter, Jr., Secretary-Director of the Commission, P. O. Box 2088, Santa Fe, New Mexico 87501.

We will be glad to assist you in any way possible.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
