The elevation of the derrick floor above sea level is _____ ft. (To be reported later.)

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

This is to report that the well location of Jack Frost "B" Well No. 1 has been changed since the Notice of Intention to Drill was filed on February 5, 1959. The new location of Jack Frost "B" Well No. 1 is 1190' from the South line and 895' from the East line of Section 27, T-27-N, R10-E.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
