☐ Altering Casing
☒ Other Downhole Commingle
☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Cross Timbers has proposed to downhole commingle the above mentioned well per NMOCD administrative order No. DHC-1273 granted on 6/7/96.

Existing equipment will be removed from this well and the well will be serviced and tested for casing leaks. A model "D" packer at 6,800' will have to be milled up and the well returned to production via a single string of tubing. The well will then be placed on a rod pump.

14. I hereby certify that the foregoing is true and correct
