*Attn: Mr. W. G. Rabe*

*Dear Mr. Rabe:*

*We have received your inquiry about oil production from the R & G Drilling Company #41 Hammond well, which is located in the Blanco Mesaverde Pool, San Juan County, New Mexico. I have referred to the New Mexico Oil and Gas Engineering Committee annual report, which is compiled from Commission records and find that the 1961 production was 148 barrels and the 1961 production was 248 barrels. Their records indicate that the well has produced no oil in 1962.*

*In checking their 1959 report I have discovered what I believe to be an error, as production in excess of 8000 barrels was indicated for a one-month period, with no production shown for the balance of the year. I am, therefore, forwarding your request to our Santa Fe Office in order that they may determine from the Operator's production report forms on file what the correct production was in 1959.*

*If we can be of any further help in the matter, please contact us.*

*Yours very truly*
