Re: Delinquent 1971 Annual Deliverability Tests

Gentlemen:

Our records reflect that 1971 annual deliverability test reports have not been submitted to this office for the following well(s) operated by your company:

Douthitt C Federal #3, D-26-27N-11W, Basin Dakota

Commission rules specify that allowable assignments for such wells be suspended effective January 10, 1972.

This letter is to notify you that allowable assignment to the above wells has been suspended and you are directed to shut the wells in until such time as they are released by the Commission.

If you have questions concerning conditions for release of shut in, please contact this office.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
